GENERAL MGR	PARTS MGR	SERVICE MGR	SALES MGR	DATE				February 1995 Revised

An analysis was done to reduce the total number of cable harnesses applicable to 240 Series vehicles.

Wherever possible, units with similar connections and applications have been replaced by a "universal" cable harness. The universal harnesses are supplied with removable adapter connectors and may also have extra leads not used for certain applications. Consult appropriate catalog for applications not listed.

The universal harnesses, outlined in this bulletin with replaced part numbers for clarity, are shipped with simple installation instructions for the technician.
