VOLVO

INSTRUCTIONS FOR USE

This brochure shows you what it is technically possible to combine from the components of the Volvo Sound System. It presupposes a given model of car and radio/cassette player.

With the use of symbols, it is then quite easy to put together an audio system for the car.

(Appearance and technical data can be seen in the special radio brochure.)

To make the selections as easy as possible, we recommend packaged deals.

VEJLEDNING

I denne brochure fremgår det hvad der er teknisk muligt at kombinere i Volvo Sound System. Det forudsætter, at man har valgt bilmodel samt radio/båndspiller. Ved hjælp af symbolerne er det enkelt at kombinere enhederne som skal indgå i bilens musikanlæg. (Design og tekniske data fremgår af den specielle radiobroschure). For at gøre valget så enkelt og muligt har i anbefalede "pakkeløsninger".

GEBRAUCHSANWEISUNG

Diese Broschüre zeigt die technischen Kombinationsmöglichkeiten im Volvo Sound System. Wir setzen voraus, daß der Kunde schon das Automodell und das Radio/Cassettengerät gewählt hat. Mit Hilfe der Symbole kann man einfach die Einheiten miteinander kombinieren, die die Musikanlage des Wagens bilden sollen. (Bezüglich Aussehen und technische Daten verweisen wir auf die spezielle Radiobroschüre.) Um die Wahl so einfach wie möglich zu machen, empfehlen wir besondere Paketlösungen.

GEBRUKSAANWIJZING

In deze brochure ziet U, welke combinaties mogelijk zijn van het Volvo Sound System. Er wordt dan wel van uitgegaan, dat men dan zijn keuze heeft laten vallen op het type auto en op de radio/cassettecorder. Met behulp van de symbolen is het dan gemakkelijk de eenheden te combineren, die bij de geluidsinstallatie van de wagen horen. (Hoe ze er uitzien en de technische gegevens vindt U in een speciale radiobroschure.) Om de keuze zo gemakkelijk mogelijk te maken hebben wij aanbevolen pakketoplossingen.

BRUKSANVISNING

I denna broschyr ser du vad som är tekniskt möjligt att kombinera ur Volvo Sound System. Den förutsätter att man valt bilmodell samt radio/kassetbandspelare. Med symbolernas hjälp är det sedan enkelt att kombinera ihop de enheter som ska ingå i bilens ljudanläggning. (Utseende och tekniska data finns i den speciella radiobroschyren.) För att göra valet så enkelt som möjligt har vi rekommenderade paketlösningar.

KÄYTTÖOHJE

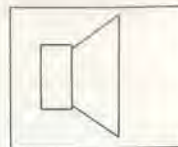

Tästä esitteestä näet, mitä teknisiä yhdistelmämahdollisuuksia on Volvo Sound Systemissä. Se edellyttää, että on valittu automalli sekä radio/kasettinauhuri. Tunnuksien avulla on yksinkertaista yhdistää yksiköt, jotka tulevat auton kuuntelulaitteisiin. (Kuva ja tekniset tiedot ovat erityisessä radioesitteessä.) Jotta valinta olisi mahdollisimman helppoa, olemme suunnitelleet suositeltavia pakettiratkaisuja.

MODE D'EMPLOI

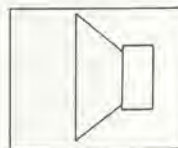

Cette brochure présente ce qu'il est techniquement possible de combiner à partir du Volvo Sound System. Cela suppose que l'on a choisi un modèle d'automobile et un autoradio-lecteur de cassettes. À l'aide des symboles, il est ensuite facile de combiner les unités qui feront partie de l'installation phonique de l'automobile. (La présentation et les caractéristiques sont présentées dans la brochure spéciale traitant de l'audio). Afin de faciliter le choix, nous recommandons des solutions groupées.

INSTRUCCIONES PARA USO

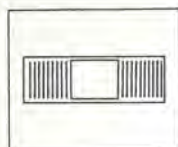

En este folleto Ud. puede ver cual es la posibilidad técnica para combinar los componentes de Volvo Sound System. Esto, siempre que se haya elegido el modelo del automóvil y radiocassette. Utilizando símbolos es muy fácil combinar luego los diferentes componentes que formarán parte del equipo de sonido. (La apariencia y las características técnicas se encuentran en un folleto especial de radio). Para facilitar aún más la elección hemos recomendado juegos completos ya combinados.

Antenna cable - should always be used when a rear-mounted aerial is to be installed.
Antennkabel - ska alltid användas då bakmonterad antenn ska monteras.
Antennekabel - skal altid anvendes ved montering af bagantenne.
Antennin johto - tulee käyttää aina kun asennetaan antenni taakse.
Antennenkabel - muß immer beim Einbau der hinteren Antenne verwendet werden.
Câble antenne - doit toujours être employé lors d'installation d'une antenne à l'arrière.
Antennekabel - moet altijd worden gebruikt bij de installatie van den achterste antenne.
Cable antena - se utilizará siempre durante el montaje de una antena posterior.

Extension cables - must always be used in the installation of rear speakers.
Förlängningskabel - ska alltid användas vid installation av bakre högtalare.
Forlænger kabel - skal altid anvendes ved installation af bageste højttalere.
Jatkojohdin - käytettävä aina asennettaessa takakaiuttimia.
Verlängerungskabel - ist stets bei der Installation von hinteren Lautsprechern erforderlich.
Câble de rallonge - doit toujours être employé lors d'installation des haut-parleurs arrière.
Verlengkabel - moet altijd worden gebruikt bij de installatie van de achterste luidsprekers.
Prolongación de cables - debe ser siempre usada en la instalación de los altavoces poste-
riores.

* If two amplifiers are to be combined, a separate installation kit is required, 1384505-2 (700/200), 1343182-0 (700).
* Vid monteringskit av 2 förstärkare behövs separat monteringskit. 1384505-2 (700/200), 1343182-0 (700).

* Ved monterings af to forstærkere, skal der anvendes et separat monteringskit, 1384505-2 (700/200), 1343182-0 (700).
* Jos autoon asennetaan 2 vahvistinta, tarvitaan erillinen asennussarja 1384505-2 (700/200), 1343182-0 (700).

* Bei kombination von 2 Verstärkern ist der separate Einbausatz 1384505-2 (700/200), bzw. 1343182-0 (700) erforderlich.
* Lors d'installation de deux amplis, il est requis un kit de montage, 1384505-2 (700/200), 1343182-0 (700).

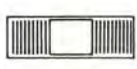

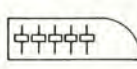

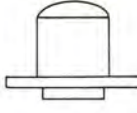

* Bij montage van twee versterkers is een separate montageset nodig. 1384505-2 (700/200), 1343182-0 (700).
* En la instalación de 2 amplificadores se necesita un juego de montaje separado, nr. 1384505-2 (700/200), y 1343182-0 (700).
